Community Connectors are...

Sociable and Engaging - Comfortable in a room of strangers, and able to make connections in any environment. Does meeting new people excite you? Does your warmth and passion for people invite others to open up? Would you call yourself 'socially courageous?' Would others?

Collaborative - Appreciate and work well with others, and know how to share power. Can you see people for their strengths, even when they - or the people in their lives - don't? Do you believe in people, their latent potentials, and do all that you can to empower them? Do you listen to other people's opinions and ideas with openness and consideration? Do you enjoy the process of working with others (and all the learnings that come along with that)?

Community Minded - Passionate about community, neighbourhoods and Asset-Based Community Development. Do you value diversity and build relationships with respect and trust? Have you participated in community either through organizing, volunteerism, association involvement, or civic leadership? Do you believe in 'citizen power'? If not, would you want to?

Innovative and Creative - Curious, wide-open minded and think outside the box. Do your friends and family call you when they are stuck on something and need new ideas? Do you have a hard time finding the time to pursue all your interests? Do you often find yourself teaching yourself new things? Do you often see how things could be done differently?

Self-Directed and Reflective - Lifelong learner who keeps motivated and accountable in the 'grey zone' Do you reflect and learn from your life's experiences? Are you able to name your core values? Are you open to setting goals and learning new things? Can you stay grounded through uncertainty? Can you make decisions on the fly?
